**FCS has no preference about what Bible version children read, but all video Bible classes use KJV, so it's easier for the students to work with the class if they use the King James Version. Many students will prefer to purchase an inexpensive KJV for the Bible classes, but have the NIV or other version available for chapel, etc.*

Parents,

We have had difficulties with students running out of essential supplies during the year, particularly notebook paper. Please make sure that your children are equipped with enough paper, pencils, etc. to last the year or plan to restock their supplies as needed.
